

2.1 PRODUCTS COVERED UNDER THE SCOPE OF SASO 2870/2018

INCLUDED PRODUCTS:

The products listed in Table 1 as per SASO 2870/2018 covers indirect and direct general light sources having a luminous flux above 60 lumens and* below 12000 lumens

TABLE 1 – LAMPS UNDER THE EER SCOPE OF SASO 2870/2018			
LAMP TYPES	HS CODES	¹ SAMPLE PHOTOS	
Incandescent lamps <i>(above 60 lumens and below 12000 lumens)</i>	853910000001 853910000002 853910009999 853921000001 853921000002 853921000003 853921000004 853921000006 853921000007		
Compact fluorescent lamps with integrated ballast (CFLi) <i>(above 60 lumens and below 12000 lumens)</i>	853931000001 853931000002 853931000004		
Halogen lamps <i>(above 60 lumens and below 12000 lumens)</i>	853922000001 853922000002 853929000001 853929000002 853929000003 853929000004		
Light-emitting diode (LED) lamps (Incandescent retrofit types) <i>(above 60 and below 12000 lumens)</i>	853950009999 854370900009 854370900010 854370909999		
Light-emitting diode (LED) lamps (Halogen retrofit types) <i>(above 60 and below 12000 lumens)</i>	853950009999 854370900009 854370900010 854370909999		
Note: ¹ The sample photos provided in this table are purely for illustration purposes only. There may be lamps/products which are considered as falling under the same description as the lamp/product types identified herein but comes in slightly different form/physique.			

Lamps under the scope of the EER which are not for resale or are exported to KSA for a specific project (i.e. restaurants, industrial projects, etc.) are not exempted from obtaining the EER certificate and EER label.

2.2 PRODUCTS COVERED UNDER THE SCOPE OF SASO 2902/2018

The products listed within **Table 2** and **Table 3** cover indirect and direct general light sources as per SASO 2902/2018 as well as Luminaires and Control gears respectively. Lamps listed in **Table 2** are categorized as having a luminous flux above and equal to 12000 lumens and another category of lamps are above 60 lumens.

TABLE 2 – LAMPS UNDER THE SCOPE OF SASO 2902/2018			
LAMP TYPES	HS CODES	¹ SAMPLE PHOTOS	
Incandescent lamps <i>(Above or equal to 12000 lumens)</i>	853910000001 853910000002 853910009999 853921000001 853921000002 853921000003 853921000004		
Compact fluorescent lamps with integrated ballast (CFLi) <i>(Above or equal to 12000 lumens)</i>	853931000001 853931000002 853931000003 853931009999		
Halogen lamps <i>(Above or equal to 12000 lumens)</i>	853922000000 853929000000		
Light-emitting diode (LED) lamps (including retrofit types) <i>(Above or equal to 12000 lumens)</i>	853950009999 854370900009 854370900010 854370909999		

TABLE 2 – LAMPS UNDER THE SCOPE OF SASO 2902/2018

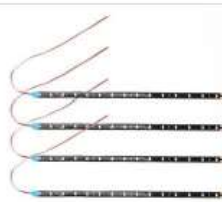

LAMP TYPES	HS CODES	SAMPLE PHOTOS	
Fluorescent lamps (all types) <i>(Above 60 lumens)</i>	85393100 85393130 85393900		
Compact fluorescent lamps without integrated ballast (CFLni) <i>(Above 60 lumens)</i>	85393100 85393130 85393900		
High Intensity Discharge Lamps - Mercury Vapour Lamps <i>(Above 60 lumens)</i>	85393200 85393210 85393900		
High Intensity Discharge Lamps - High/ Low Pressure Sodium Lamps <i>(Above 60 lumens)</i>	85393200 85393220 85393900		<p>HIGH PRESSURE SODIUM LAMP STRUCTURE</p> 

TABLE 2 – LAMPS UNDER THE SCOPE OF SASO 2902/2018

LAMP TYPES	HS CODES	¹ SAMPLE PHOTOS	
High Intensity Discharge Lamps - Quartz Metal Halide Lamps <i>(Above 60 lumens)</i>	85393200 85393230 85393900		
High Intensity Discharge Lamps - Ceramic Metal Halide Lamps <i>(Above 60 lumens)</i>	85393200 85393230 85393900		
LED Lamps (all types)	853950009999		

2.3 LUMINAIRES AND CONTROL GEARS COVERED UNDER THE SCOPE OF SASO 2902/2018

Table 3 consists of luminaires and control gears as per the scope of SASO 2902/2018. Luminaires are categorized into directional and non-directional integrated luminaires

TABLE 3 – LUMINAIRES AND CONTROL GEARS UNDER THE SCOPE OF SASO 2902/2018			
DESCRIPTION	HS CODES	¹ SAMPLE PHOTOS	
Directional Integrated ² Luminaires	94051000 94052000 94053000 94054000		
LED stripes/ LED strip lights (Rope luminaires)	94054000		
Non-directional Integrated ² Luminaires, (Example: LED Panels, Recessed luminaires)	94051000 94052000 94053000 94054000		
			
Control gears	85041000 85044000 85045000		

Note:

¹ The sample photos provided in this table are purely for illustration purposes only. There may be lamps/products which are considered as falling under the same description as the lamp/product types identified herein but comes in slightly different form/physique.

² Integrated luminaires are those luminaires that are provided with non-replaceable lamps.
