Total Quality. Assured.

A photograph of a woman relaxing in a bathtub filled with white foam. She is wearing a brown towel on her head and has her eyes closed. The scene is lit with warm, soft light from several lit candles in white holders. A large yellow circle is overlaid on the top right of the image, containing the text 'PLUMBING PRODUCT TOTAL QUALITY ASSURANCE SERVICE'. There are also smaller overlapping circles in blue and yellow with a hatched pattern.

### Service scope

**IAPMO-UPC/cUPC certification**  
UpC/cUPC certification is promulgated by IAPMO. Intertek, the strategic cooperative partner with IAPMO. This certification is toward to faucets, hoses, shower heads, angle valves, valves, and cartridge, and other plumbing product.

**NSF 61 testing**  
Intertek is one of the NSF 61 toxicity test laboratory that certificated by IAPMO, which means, after passing the toxicity test in Intertek lab, the manufactures can apply for the ETL-NSF certification to Intertek or IAPMO-NSF certification to IAPMO directly.

**The united states unleaded bill (NSF 372)**  
The U.S. act requires that all product materials that come into contact with drinking water require an NSF372 test. Intertek is one of the NSF toxicity test laboratory that certificated by IAPMO, which means, after passing the toxicity test in Intertek lab, the manufactures can apply for the ETL-NSF certification to Intertek or IAPMO-NSF certification to IAPMO directly.

**The U.S. environmental protection agency (EPA) WaterSense certification**  
WaterSense is run by the U.S. environmental protection agency (EPA), which is to help consumers identify the similar products in the most efficient and hutch of water-saving products in the market, mainly including toilet, faucet, shower, etc.

**Intertek ETL-LISTED mark**  
Intertek is pleased to offer our ETL-LISTED mark as a new choice for compliance with the Uniform Plumbing Code™ (UPC). Which is one of North America's dominant certification marks.

**Maximum performance (MaP) testing**  
Intertek, acted as the recognized lab, can perform Map testing as localize service. The applicants register for MAP using Intertek test report, then get approval by Veritec Consulting Inc.

**CE in europe**  
"CE" mark is a safety certification mark, which is considered expanding and a passport to enter the European market. Those who posted "CE" mark of the product can be sold in the EU member states, achieve the goods within the EU member states the freedom of circulation.

**WaterMark and StandardsMark in Australia**  
Intertek has successfully expanded the testing standard capability of many Australian building products, including the testing of mechanical performance of plumbing and AS/NZS4020 standars.

Further, Intertek set up global market access program either to Oceania, Middle East, Africa, etc, which can help your product go through the world.
