

TGI的效益

环境效益

- » 帮助保护自然环境和生活环境
- » 促进社会和资源的可持续发展

商业效益

对供应商:

- » 提供评估和报告工具以衡量环保绩效，找出与同行间差距，提高改进效率并体现改善进度
- » 提供专家在线咨询，帮助实现持续改进
- » 实现双赢：减少对环境的影响并降低运营成本
- » 提供全面的环境绩效管理解决方案：一个业界公认、全球倡议的多元化评估模式

对品牌商和零售商:

- » 促进可持续发展倡导者之间合作，分享专业知识和良好实践经验
- » 提供一项用于管理整个供应链环境足迹的灵活高效的解决方案
- » 帮助品牌商和零售商选择‘环境友好型’供应商，并做出快速而睿智的采购决策
- » 协助品牌商和零售商向消费者及其他相关方宣传其在构建可持续发展供应链方面所做的承诺和努力

TGI资源中心和交流平台

TGI旨在帮助制造商掌握环保技巧，提高管理能力，并分享关于环境问题、环保实践和进行有效的绩效管理方面的最新“资讯”。这一资源兼合作平台为制造商努力实现环保项目的持续改进提供有效支持。

TGI资源中心和交流平台可提供：

- » 环境新闻、法规和政策
- » 良好的环保实践和可持续生产‘最新资讯’
- » 环境绩效管理专家之间的沟通渠道
- » 环保培训班，研讨会和项目发展的最新动态

立即加入TGI来改善您的环保绩效吧！

think green initiative

打造绿色环保价值链！

TGI的优势

一项显著改善环境绩效的实用方法

有效评估并缩短企业环境绩效差距

TGI的产生旨在简化复杂冗余的环境评估和改善工厂在整条供应链中的环境足迹。

TGI的目的在于提供高效务实的、以供应商为中心的环境评估工具和能力建设资源，从而协助供应商努力改进并展示其环境绩效。

TGI: 全面支持能力建设和推动环境绩效的不断改善!

TGI帮助供应商:

- » 加强与供应链中环保倡导者和相关方之间的联系
- » 建立实用、有效的供应链环境评估方法
- » 共享卓越的环保实践知识和技术
- » 注重效率，显著改善环保成效

TGI环境绩效评估工具包

量身定制的TGI工具包对任何企业的生产过程均有很好的基准性及最大的适用性。

TGI工具包可以协助评估、衡量和监测供应商的环境表现，并非常有效地确定改进空间。

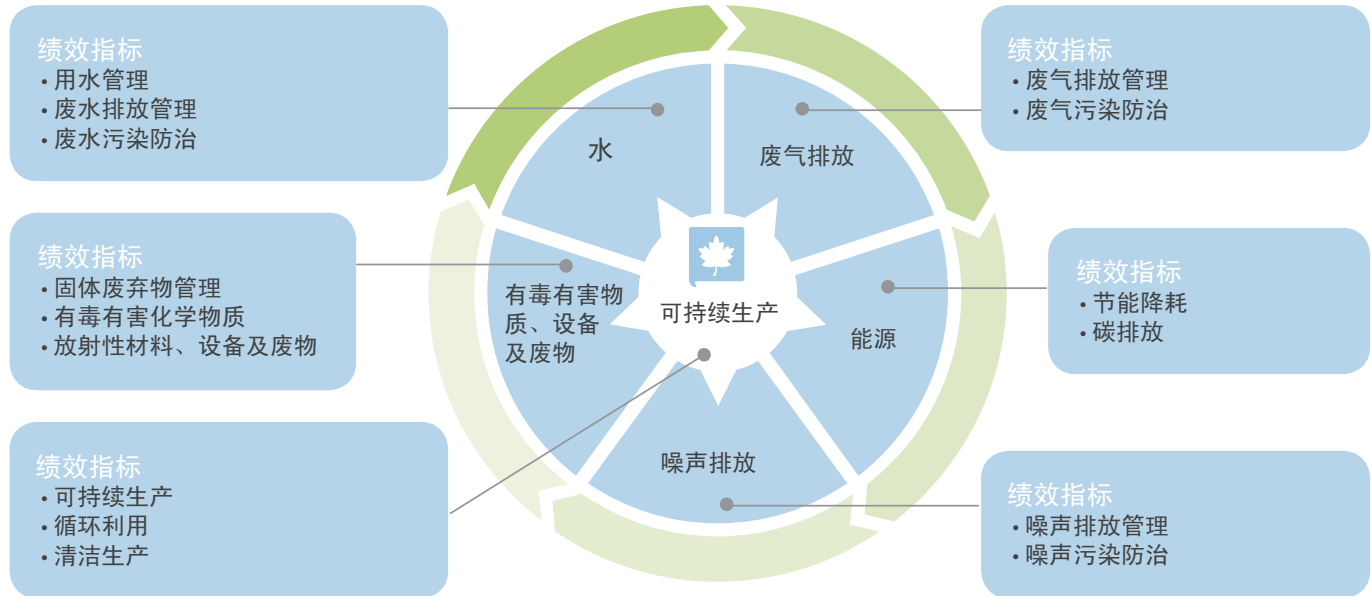

该工具包由八个评估模块组成—两个对总体执行情况进行评估的模块和六个独立评估模块。这六个模块均有各自的关键业绩指标（KPI），根据工厂生产类型、行业、区域、发展程度、产能、生产工艺和相关的环境影响等专业评估参数，相应的模块将被采用来进行评估。

基本评估模块:

法律法规流程符合性概述

环境管理体系

六个独立评估模块:

TGI Benefits

Benefits to the Environment

- » Helps preserve the natural environment and habitats
- » Promotes sustainable development of communities and resources

Benefits to Business

To Suppliers:

- » Provides assessment & reporting tools for **benchmarking** environmental performance against industry peers, **identifying gaps, accelerating improvement efforts** and showcasing progress
- » Provides **access to a network of experts** that can assist with continuous improvement efforts
- » Produces **win-win results**: less environmental impact and reduce operational costs
- » Offers a comprehensive environmental performance management solution: an industry-recognized, **global initiative** effectively **countering 'multiple assessment fatigue'**

To Consumer Brands and Retailers:

- » Allows environmental performance leaders to **collaborate & share expertise** and good practices
- » Provides a flexible and efficient solution for **managing the environmental footprint across the supply chain**
- » Helps companies **choose 'environmentally-friendly' suppliers** and make quick, yet informed sourcing decisions
- » Aids in **communicating environmental commitment** to consumers and other stakeholders

TGI Resource Center

TGI aims to equip manufacturers with the skill sets, capabilities and up-to date "intelligence" on environmental issues, practices, and effective performance management. This resource and collaboration platform provides necessary support for manufacturers in their effort to bring 'continuous improvement' to their environmental programs.

TGI's Resources Center and Stakeholder Engagement Platform provides access to:

- » Environmental news, regulations and policies
- » Environmental good practices and sustainable production 'intelligence'
- » A network of environmental performance management experts
- » Environmental training sessions, seminars and working groups

think green initiative

*Greening The Value Chain:
A Pragmatic Approach*

The TGI Advantage

A Pragmatic Approach for Measurably Improving Environmental Performance

Efficiently Assess and Bridge your Facility's Gaps in Environmental Performance!

The **Think Green Initiative (TGI)** arose out of a need to reduce the complexity and redundancy in assessing and minimizing factories' environmental footprint throughout the extended supply chain.

The aim of TGI is to provide highly pragmatic, supplier-focused environmental assessment tools and capacity-building resources that facilitate suppliers' efforts to improve and showcase their environmental performance.

TGI: Full support for capacity-building and managing continuous improvement of environmental performance!

TGI Assists Suppliers in:

- » Connecting to leading supply chain environmental performers and stakeholders
- » Creating pragmatic and effective environmental standards for the supply chain
- » Sharing knowledge and techniques of environmental good practice
- » Enabling efficient, significantly improved environmental performance

TGI Environmental Performance Assessment Toolkit

*The TGI toolkit's **tailored assessment approach** allows for easy benchmarking as well as maximum flexibility and relevance to any facility's production process.*

The TGI assessment toolkit assists suppliers in evaluating, benchmarking and monitoring environmental performance. This toolkit is highly effective in identifying opportunities for improvement.

This toolkit consists of eight Assessment Modules – two to assess Overall Compliance Performance and six additional Individual Assessment Modules – each with its own set of key performance indicators (KPIs). Factories can work with the modules according to specialized assessment parameters for production type, sector, region, maturity, capability, production processes and corresponding environmental impacts.

Basic Compliance Modules:

Environmental Legal Compliance Overview

Environmental Management System

Six Individual Assessment Modules:
