

## CPSIA简报

2008年8月14日，美国总统乔治·布什正式签署颁布《消费品安全改进法案》（CPSIA）。这项改进法案扩大了消费品安全委员会(CPSC)在保障消费品安全中所起的作用，尤其是那些为儿童设计的产品。该法案限制儿童产品中某些化学品的含量，旨在保护美国公众避免受到由消费品造成的伤亡风险，是美国对一系列“有毒玩具”和其他产品召回事件做出的反应。

### CPSIA法案要点主要包括：

#### 1. 限制儿童产品中的基材铅含量

- \* 600ppm — CPSIA颁布180天（2009年2月10日）后生效；
- \* 300ppm — CPSIA颁布一年（2009年8月14日）后生效；
- \* 100ppm（如CPSC确认技术上可行）— CPSIA颁布三年（2011年8月14日）后生效

#### 2. 限制儿童产品中的油漆及涂料的铅含量

- 更为严厉的儿童产品的油漆及涂料铅含量限值于CPSIA颁布一年（2009年8月14日）后生效
- \* 从600ppm(0.06%)降至90ppm(0.009%)

#### 3. 禁止销售某些含邻苯二甲酸酯的产品

- 从2009年2月10日起，任何人制造或销售以下产品即为违法：
- \* 儿童玩具或儿童护理产品包含超过0.1%的DEHP, DBP或BBP；并且
  - \* 可放入口里的儿童玩具或儿童护理产品包含超过0.1%的DINP, DIDP 或 DnOP

#### 4. 强制第三方检测

所有涉及到儿童产品安全法令法规（包括CPSC及本修正案CPSIA、其他相似标准、规章、禁令、规定和其他CPSC强制执行的法案）的产品必须在具备CPSC认可资质的第三方检测机构进行检测，以证明其产品符合CPSC强制执行的相关标准和规定，及各种指定的有关规定。

### CPSIA测试：

铅含量

邻苯二甲酸盐

燃烧测试

Intertek广州黄埔纺织和鞋类实验室可以为您提供**CPSIA一站式测试服务**，为您节约送测时间！

## CPSIA Briefing

On 14 August 2008, the Consumer Product Safety Improvement Act (CPSIA) was signed into law by President George W Bush. The Act expands the Consumer Product Safety Commission (CPSC)'s role in ensuring the safety of consumer products, especially those designed for children. The CPSIA restricts the amount of certain chemicals in children's products. The aim of this Act is to protect the American public from unreasonable risks of injury and death posed by consumer products and is in response to a wave of recalls of toxic toys and other products.

### Summary of CPSIA mainly includes:

#### 1. Lead in substrate of children's products

- \* 600 ppm - effective 180 days after enactment of the Act (10-Feb-09)
- \* 300 ppm - effective 1 year after enactment of the Act (14-Aug-09)
- \* 100 ppm (if determined technologically feasible by CPSC) effective 3 years after enactment of the Act (14-Aug-2011)

#### 2. Lead in paint and other similar surface coating of children's products

- More stringent Lead limit in paint effective 1 year after enactment of the Act (14 August 2009).
- \* From 600 ppm (0.06%) to 90 ppm (0.009%)

#### 3. Prohibition on sale of certain products containing specified phthalates

Beginning from 10 Feb 2009, it shall be unlawful for anyone to manufacture for sale :

- \* Any children's toy or childcare article that contains concentrations of more than 0.1% of DEHP, DBP or BBP; &
- \* Any children's toy that can be placed in a child's mouth or childcare article that also contains concentration of more than 0.1% of DINP, DIDP or DnOP

#### 4. Third-Party Testing

Third-party testing by accredited third party laboratories is required for children's product subject to standards promulgated by the Commission under the Consumer Product Safety Improvement Act, CPSA bans as well as standards, or to any similar rules, bans, standards, or regulations under any other Act enforced by the Commission , in order to certificate the children's product meet those mandatory CPSC standards, bans, etc.

## CPSIA Testing:

Lead Content

Phthalates

Flammability

Intertek Testing Services Guangzhou Ltd is glad to offer you  
**One Stop Service for CPSIA testing.**

**For product testing or more information, please contact as bellow:**
