

## GlobalGap

### The Challenge

From the farm to the fork, the entire food industry itself has evolved into a diverse network of multiple channels. More often we find the core operational structure, as well as various business processes involved in food production and distribution, fail to communicate and align with one another.

If food safety and quality procedures like GlobalGap - Global Retailer Produce Working Group GAP are not understood, implemented, and embraced by all parties involved, not only is the quality of the food produced at risk, but also the reputation and brand value of the company behind it.

### The Solution

Through over 500 offices worldwide and highly qualified auditors, Intertek can help you achieve your quality goals and fulfill your customers' requirements in terms of both food quality and safety.

GlobalGap certification is now widely recognized and accepted for farmers and groups working worldwide. Intertek has been accredited to support and certify your manufacturing facilities and organizations according to GlobalGap Integrated Farm Assurance for Aquaculture, Livestock and all Crops Base with several services such as:

- ✓ **Training / consultancy:** where you can learn about requirements to implement GlobalGap.
  - ✓ **Pre-audit certification:** where you can identify non conformities, strengths and weaknesses before the actual certification audit is complete.
  - ✓ **Initial audit:** where the first actual certification GlobalGap audit is done.
- Follow-up audit:** to renew your GlobalGap certificate.

### In Summary

At Intertek, it is our sole mission to provide not only the one-stop-shop you seek for all food services, but also establish a trusted partnership with your business - consistently adding value and increasing your competitive advantage in the industry with every step we take together.
