

To whom it may concern,

The implementation of the List of Products for Phase Two (A) under the technical regulation on conformity scheme (Reference: DGSM-PL-1A-23) issued by the Ministry of Commerce, Industry and Investment Promotion (MOCIIP) – Directorate General for Standards and Metrology (DGSM) will be effective from 8th December 2023.

The scope of this phase includes the following products categories under Energy Efficiency Labeling Scheme:

- Electrical Clothes Washing Machines (OS 1651:2022)
- Water Heaters (OS 1652:2022)
- Refrigerators, Refrigerator-Freezers and Freezers (OS 1653:2022)

The manufacturer shall apply to a single DGSM Notified Body by of his choice for verification and registration of their products and obtain the permit to use the Omani energy efficiency labelling.

Notified Body shall proceed to perform the registration, if the result of the verification is positive, and provide the Energy Efficiency label and registration documents to the applicant / manufacturer as soon as the HAZM platform is available. The registration validity period for Energy Efficiency label will be valid for 2 years.

Before 8th June 2024, Notified Body can issue a confirmation document as the evidence of application initiated by the manufacturer.

The manufacturer takes responsibility to attach the registered Energy Efficiency label generated by HAZM platform to the products being manufactured, imported, and sold in Oman once receiving the deliverables from the Notified Body.

Best Regards,

Emaad khamis Alshukaili

General Director for Standards and Metrology
